Introduction to Judaism is a comprehensive course of eighteen sessions. The class meets once a week for two hours. The course organizes instruction according to the major holidays and events in the Jewish life cycle.

Why take Introduction to Judaism?

- **You are Jewish** but did not learn as much as you would have liked when you were younger. Perhaps your parents did not give you a Jewish education or your Jewish education ended after bar/bat mitzvah and you want to gain an adult understanding of Judaism.
- **You are a non-Jew participating in raising Jewish children** and want to know more about Jewish customs and holidays so that you can participate more fully in the religious life of your family. We encourage your Jewish partner to take the class with you—one tuition charge covers both of you.
- **You are a non-Jew who grew up in a different faith tradition and wish to explore Judaism and / or are considering conversion.** Introduction to Judaism fulfills the basic educational requirements for conversion to Judaism
- **You are a non-Jew committed to another faith tradition who would like gain an understanding of Judaism.**

Whatever the reason, INTRODUCTION TO JUDAISM offers you a time and place to broaden your Jewish knowledge.
